Subject: Re: NJDEP Draft Tier A and Tier B MS4 General Permits

To all:

NJDEP has public noticed their draft Tier A and Tier B MS4 General Permits. NJDEP issues four MS4 permits; Tier A and B address municipalities, the public complexes permit and the highways permit. I have provided the links to the draft permits and their supporting documents below.

The Tier A permit encompasses federally required municipalities and other NJDEP designated municipalities that NJ determined were important to be permitted with more requirements than the Tier B. The NJDEP Tier B permit encompasses municipalities in more rural areas of NJ and contain no federally required municipalities.

I am requesting that I receive comments by March 15th. I will combine all comments, distribute them to all that commented for a final review, and ready them for official submission to NJDEP from CWRB. As the Tier A draft permit contains the federally required municipalities, please review the Tier A first.

Comments are officially due by April 3rd.
